## **Kifowit and Cullerton Leading Efforts to Help Prevent Veterans' Suicide**

**SPRINGFIELD, Ill.** – With growing concern over the number of veterans who are committing suicide, State Rep. Stephanie Kifowit, D-Oswego, and State Senator Tom Cullerton, D-Villa Park, announced the meeting dates and locations of the Veterans' Suicide Task Force Hearings at a press conference on Tuesday.

“One veteran who believes that suicide is the only solution, is one too many,” Kifowit said. “No matter which branch a veteran has served in, we all live by the code to 'never leave someone behind'. We are committed to not leaving these veterans behind and working together to help save lives.”

Kifowit and Cullerton collaborated to create the Task Force on Veterans' Suicide. The Task Force will gather information from veterans, organizations and companies on how the state can more effectively meet the needs of the veteran community. This includes focusing on all aspects of a veteran's support network, employment, and support for the family of veterans, in addition to their time spent in combat. The hearings scheduled to take place across the State will focus on the mental health challenges facing veterans from all eras of service.

"If we can find meaningful solutions through our work on this Task Force, not only are we healing our state and veterans, but we are going to have an impact throughout the nation," Cullerton said. "We continue to hear alarming statistics on veteran suicide rates. Our mission is clear: we need to bring the statistic to zero veteran suicides a day."

Kifowit and Cullerton were joined at the press conference by the Chairperson of the Veterans' Affairs Committee State Representative Chapa LaVia (D-Aurora), USMC Veteran Captain Alexandra Stokman Brackett from Peoria, IL and Army Veteran Sergeant Will Attig from Carbondale, IL.

“My hope is that through this Task Force we can make genuine strides in assisting veterans and helping save lives,” Chapa LaVia said. “As the Chair of the Veterans' Committee, I look forward to working with Representative Kifowit and Senator Cullerton on finding ways we can meet our obligations to those who have sacrificed so much for our nation.”
